

Explore Aotearoa

Across this 10-day adventure students get the opportunity to really explore what this country has to offer, travelling to many of the most iconic and beautiful sites across the Top of the South Island.

This discovery program allows students to really make the most of their time in New Zealand. Students will explore national parks, take part in adventurous activities, access remote beaches, discover wilderness areas off the beaten track and encounter local wildlife.

Available to:	16 - 18yr old International Students
Duration:	10 Day program
Activities:	Camping, walking, active group exploration
Location:	South Island of New Zealand, starting & finishing in Nelson
Dates:	Programs are offered in NZ school holiday breaks. Refer to our website for upcoming dates.

*Additional activities outside of the program are not included in the cost.

Note: Itinerary order and activities could change due to weather or logistical factors.

10 Day Discovery Program

Golden Bay Exploration: 3 - 4 Days

Golden Bay is famous for fantastic beaches, rugged terrain and crystal clear rivers. Students will discover the spectacular and remote Cape Farewell and Wharariki beach, a journey through farmland and forest to access the very wild West Coast. Take in the beauty of Te Waikoropupu Springs (the clearest water in the world) and learn about its cultural significance.

Abel Tasman National Park Exploration: 3 - 4 Days

The Abel Tasman National Park is one of New Zealand's most iconic attractions. Golden beaches, clear waters, abundant bird and sea life, and lush native forest create the perfect setting to explore New Zealand's stunning coast. Not only will students experience the beauty of the park, they will get an opportunity to learn about the park's unique conservation initiatives. Whilst hiking along the coastal pathways students will stay at beach campsites, swim in the clear turquoise waters, relax on the beach and marvel at the stars under clear night skies.

Kaikoura & Hanmer Springs Exploration: 3 - 4 Days

Travelling to the East Coast students get to experience completely different landscapes. From Nelson, students will travel through the Marlborough region and take in the dramatic mountains of Kaikoura where the Southern Alps meet the sea. Students will encounter marine wildlife with time allocated for an optional extra ocean experience of students choice, such as whale watching. From Kaikoura students journey inland to Hanmer Springs, indulging in natural hot pools while soaking up the views of the surrounding mountains before driving back through a majestic mountain pass back to Nelson.
